

WET BRAKE OIL

= UTTO =

PRODUCT DATA SHEET

AUROLUBE'S WET BRAKE OIL UTTO is a Universal Tractor Transmission Oil (UTTO). It is formulated with a combination of high-quality base stocks and carefully selected additives. It is also designed for delivering superior performance in transmission, hydraulic, final drive, and PTO systems for tractors. It has a high viscosity benefiting while operating at higher temperatures, which results in lower oil consumption and less wear and tear. It also plays a vital role in the effective lubrication of parts to confirm the speed, load, and temperature conditions of the lubricated parts. It will protect your tractor against rust and corrosion. This product can also be used in other off-road equipment requiring UTTO type transmission fluid. Wet Brake Oil (UTTO) is heavy-duty tractor transmission oil designed for tractors often used in agricultural, quarrying, and construction activities.

FEATURES & BENEFITS

- Excellent low Temperature's fluidity provides good response and effective lubrication at low ambient temperatures.
- High viscosity index coupled with shear stability provides consistent performance.
- Increase frictional properties optimize clutch performance and ensure noise-free operation of wet brakes
- Robust anti-wear and extreme pressure properties control wear, extend equipment life and reduces maintenance costs.
- Protect against Rust and Corrosion
- Long-lasting oil and equipment life

MEETS REQUIREMENTS OF

- API GL-4
- Ford M 2C86-B/C & Ford M 2C 134-D
- Massey Ferguson 1135/1143/1145
- John Deere J20C
- Allision C-4
- Caterpillar TO-2.

PHYSICO-CHEMICAL PROPERTIES (TYPICAL)

Properties	Value
Kinematic Viscosity @ 100°C,cSt	11-14
Viscosity Index	110
Flash Point, °C MAX	210
Pour Point, °C MAX	-18
Copper Strip Corrosion 3 Hrs	1b
